

Guess how many grants Turn2us provided last year?

Thanks to the support of people like you, Turn2us grants have made a significant difference for those of us who were living with financial insecurity last year.

How to play

1. Fold over the top corner of this poster to hide the answer.
2. Ask people to make a small donation, such as £1 or £2 to play.
3. Gather guesses for how many grants Turn2us provided last year. Make a note of everyone's guesses.
4. Once everyone has donated and guessed – reveal the answer. Go for the closest answer if no one is exactly right.
5. Give the winner the prize of your choosing – maybe some sweet treats, a voucher or some nice smellies!

Thanks to supporters like you Turn2us grants offer up to £4 million a year in practical financial support. These grants do not have to be paid back and can support people and families to:

Purchase a working oven or fridge, so they can provide fresh, cooked food for their families.

Cover their rent, so they can keep a roof over their heads whilst they recover from a financial shock.

Provide support with rising utility bills, to keep the lights and heating on in the colder months.
